Charity Projects Manifesto 1.0

Principles for delivering successful
projects, together, every time

In our organisation we:

❶
Carry out projects to
introduce beneficial change

❷
Only do projects which have an
appropriate sponsor and supportive,
decisive governance

❸
Understand and commit the skills
and resources required

❹
Appreciate and support people as our
most important project resource

❺
Give projects the same respect
as business as usual

❻
Value project progress over particular
tools or techniques

❼
Seek out the truth, even
when uncomfortable

❽
Practise transparent
communication throughout
